

Seafood Specialities

For over 20 years, PGI foods has been crafting high quality, value-added frozen foods including elegant seafood appetizers and all-natural salmon burgers. Where some of our competitors' offerings are heavy on breadcrumbs and other fillers, our line features a high proportion of premium seafood. Our bulk-packaged items are available frozen with a 12-month shelf life and are produced in our modern, USDA/FDA inspected, SQF Level II certified facility in Lowell, MA.
